Wilfully False.

The Kalamazoo Gazette, Corunna emocrat, and a few other Englishdemocratic journals, endorse and reiterate the following palpable falsehood, originally uttered by the Free Press of this city:

"CONGRESSIONAL ECONOMY .- The loan bill which passed Congress just at the close of the session was for fifteen 1817 millions of dollars. This was all the Union. dministration asked."

I. Immediately after Congress as-sembled, the Administration asked and obtained permission to issue, and did issue, and keep afloat, \$20,000,000 of Government shinplasters. These shinplasters, without any provision for their redemption, are now daily received and paid out by the boasted Democratic, Specie-paying U. S. Treasury, as Bank Union.

II. In May following the Adminis-tration again called on Congress for more money. Instead of shinplasters, it called this time for a loan of \$15,-000,000. The measure was kept back, and in the hands of the Committee of Union. Ways and Means-the mere instrument in the hands of the Administration-in both Houses of Congress, until

or redeem the \$20,000,000 of shinplas-ters issued in January, and that the on two of its great circles with two other \$10,000,000 be placed in the walls each six feet high and two feet Treasury to avoid the necessity of an thick! It is to be understood, howextra session, to provide means to meet the debts of the Administration as they accrued, and to avoid the dishonor of wall.—Barrow's Travels in China. the Government's stopping payment or postponing just claims of citizens, which the administration will now be obliged to do, until the meeting of Congress in December. The motion of Mr. Howard was carried in Committee, but defeated in the House, and the bill finally passed, as "the Administration asked" and demanded, and as it had issed the Senate, for twenty, instead of fifteen millions of dollars.

These are the facts, known to the Free Press, the Gazette, the Democrat, and every intelligent journal in the State, notwithstanding their assertion

Now, mark the prediction: At the meeting of Congress in December next, one of the first things it will be called upon to do, as it was at the last session, will be to promptly provide money to meet the pecuniary obligations of the Administration. The \$20,000,000 of shinplasters will be unredeemed, the \$20,000,000 loan will be used up, the will be spent, and the Administration will be in debt from ten to twenty militions of dollars. The Administration is trying to avert their own evident doom, by forcing large amounts of land into market, and other similar expedients. But the falling off of \$35,000,000 in the revenue thus far this year, and the almost certain falling off of even more during the remainder, under the Free-Trade-Tariff-and-Direct-Taxation Policy of the present "democratic" Party and Administration, on the one hand, and the Enormously Increased and Extravigant Expenditure on the other, evidently foreshadows such a result. Mr. Buchanan went into office with nearly \$18,000,000 of surplus; the probability is that he will go out of
